We have relied on the representation made by the management in the relation to the compliance of the aforesaid laws and wish to state that the Company has complied with the applicable laws during the period under review.

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards as issued and implemented by The Institute of Company Secretaries of India.
- (ii) The Listing Agreements entered into by the Company with BSE Limited and National Stock Exchange of India Limited.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

We further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda at least seven days in advance. However, a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

We further report that pursuant to appointment of Compliance Officer, there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period:

1. We have relied on the qualification / reservation / observation provided in report of internal as well as statutory auditors of the Company for compliance system relating to direct tax, indirect tax and other tax laws.
2. During the year under review, M/s. Rubberwala Housing & Infrastructure Limited and M/s. Mukhi Industries Limited, acquired the Company on May 04, 2018 through the Corporate Insolvency Resolution Process ('CIRP Process') under the Insolvency and Bankruptcy Code, 2016 ('IBC') (the 'Acquisition'). Post-Acquisition, the Board of Directors of the Company ('Board') was re-constituted and a new management ('New Management') was put in place to implement the Resolution Plan as approved by the National Company Law Tribunal, Mumbai Bench, Mumbai ('NCLT') vide its Order dated April 19, 2018 ('NCLT Order') ('Approved Resolution Plan' or 'Resolution Plan').
3. During the year, the Company have taken relevant steps for repayment of the Public Deposits as per the Scheme sanctioned by Hon'ble National Company Law Tribunal (NCLT), Mumbai Bench. However, the Company has still not repaid the full amount of Public deposits liable to paid in pursuance to the sanctioned Scheme of NCLT.
4. There have been huge penalties levied by the Stock Exchanges for non compliance / late submission of compliances by the Company under SEBI (Listing and Disclosure Requirements) Regulations, 2015 in past financial years, the payment of which is still not made by the Company. The Company has made a Miscellaneous Application with Hon'ble NCLT, Mumbai Bench for waiver of the aforesaid penalty and the matter is pending.
5. Securities Exchange Board of India (SEBI) vide its Order dated November 28, 2018 has imposed a penalty of Rs. 500,000/- (Rupees Five Lakhs) under section 23(A)(a) of Securities Contract Regulation Act, 1956, against which the Company has filed an appeal with the Securities Appellate Tribunal against the Order of SEBI and the matter is still sub judice.
6. The trading in securities of the Company has been suspended by both the stock exchanges due to reduction of share capital of the Company. The corporate action i.e. reduction in share capital is still pending to be effected and thus the trading in securities is still suspended on both the stock exchanges.
7. Pursuant to the Order of the NCLT dated April 19, 2019, the Company has allotted 1,12,41,513 shares of Rs. 10/- each to new promoters of the Company i.e. M/s. Rubberwala Housing & Infrastructure Limited and M/s. Mukhi Industries Limited, on May 16, 2018 as per the Resolution Plan approved by the Hon'ble National Company Law Tribunal.

MANAGEMENT DISCUSSION AND ANALYSIS FORWARD-LOOKING STATEMENT

CAUTIONARY STATEMENT:

This Management Discussion and Analysis statements of Annual Report has been included in adherence to the spirit enunciated in the code of corporate Governance approved by the Securities and Exchange Board of India, Statement in the Management Discussion and Analysis describing the Company's objectives, projections estimates expectation may be "Forward-Looking Statement" within the meaning of applicable securities laws and regulation. These statements are subject to certain risks and uncertainties. Actual result may differ materially from those either expressed or implied in the statement depending on circumstances. Important factors that could make a difference to the Company's operations include economic conditions affecting demand/supply and price conditions in the Government policies, economic development, political factors and such other factors beyond the control of the Company.

ECONOMIC OVERVIEW

India's Gross Domestic Product (GDP) grew by 6.8% in 2018-19, as per the data released by the Central Statistics Office (CSO). The growth is at a 5-year low after 2013-14 when the economy grew by 6.4%. However, India still continues to be the world's fastest growing major economy.

The World Bank projects India's GDP to grow by an average of 7.5% in 2019-20 and 2020-21, with investment picking up and consumption remaining strong.

INDUSTRY STRUCTURE, DEVELOPMENTS AND INDUSTRIAL OUTLOOK:

Global Scenario

The global edible oil market is segmented into palm, soya bean, sunflower, olive, corn and canola oils, as well as specialty blended oils and others. The global edible oils market is expected to register a CAGR of 5.1% through the forecast period to reach the value of US\$ 130.3 billion at the end of 2024. The global edible oils market is segmented on the basis of region, into North America, Europe, Asia Pacific, Latin America and Middle-East and Africa (MEA). Asia Pacific is projected to dominate the global market, accounting for 41.29% share in 2015, and is expected to account for 42.40% at the end of 2024.

India Scenario

Edible oil constitutes an important component of food expenditure in Indian households. The edible oil industry is one of the most important within the agriculture sector in India, the world's largest importer from Indonesia and Malaysia and the third largest consumer. India is also the fifth largest oil seed-producing country in the world after USA, China and Brazil. In all, nine types of oilseeds are produced in India of the nine, soya bean, ground nut, and mustard are the major oilseeds produced in the country. Consumption of vegetable oils have increased due to a rise in overall household income, surging retail sector, increasing health awareness, growing population and increasing demand. The growth of edible oil consumption and increasing population coupled with limited availability of oil seeds and shifting of acreage to other crops have resulted in continuous demand-supply gaps for edible oil, which is being met by imports.

India is a USD 2.8 trillion economy with a population of over 1.3 Billion people. Edible Oil is an important component of the household food basket. The total production of edible oil in the country is around 10.06 Million MT, while the domestic requirement is around 25 Million MT. Since domestic production of edible oils is unable to meet demand, import of edible oils has been resorted to for more than two decades to make this item of mass consumption easily available to consumers at reasonable prices. It is the world's largest edible oil importer, with oil and oil seed turnover of USD 25 Billion and import-export turnover of around USD 13 Billion. India is importing around 15.028 Million tonnes of edible oil per annum at the cost of approximately USD 11 Billion per annum.

Indian Edible Oil Industry at a Glance

Edible oils and Fats are essential ingredients for a wholesome and balanced diet and are vital items of mass consumption. There are two sources of oils viz. primary source and secondary source. The primary sources of oil are nine principal

oilseeds viz. groundnut, rapeseed/mustard, soyabean, sunflower, sesame, niger, safflower, castor and linseeds. Edible oils obtained through secondary sources include coconut, cottonseed, palm, rice bran and oilseed cakes.

As per the 2nd Advance Estimates of Ministry of Agriculture released on 28.02.2019 for 2018-19, estimated Oilseeds production is about 3.15 Million MT and estimated production of oils from these oilseeds in 2018-19 comes to about 0.72 Million MT. The total availability of edible oils from primary as well as secondary sources is estimated at 1.63 Million MT.

India is fortunate in having a wide range of oilseeds crops grown in its different agro climatic zones. Groundnut, mustard, rapeseed, sesame, safflower, linseed, nigerseed, castor are the major traditionally cultivated oilseeds. Soyabean and sunflower have also assumed importance in recent years. Coconut is most important amongst the plantation crops. Efforts are being made to grow oil palm in Andhra Pradesh, Karnataka, Tamil Nadu and North- Eastern parts of the country in addition to Kerala and Andaman & Nicobar Islands. Among the non-conventional oils, rice bran oil and cottonseed oil are the most important. In addition, oilseeds of tree and forest origin, which grow mostly in tribal inhabited areas, are also a significant source of oils. Figures pertaining to estimated production of major cultivated oilseeds, availability of edible oils from all domestic sources (from Domestic and Import Sources) during the last ten years are as under:

(Qty in million MT)

Year	Production of oil seeds	Domestic Availability	Imports	Total Availability / Consumption
2013-14	32.75	10.19	10.97	21.16
2014-15	27.51	9.20	13.85	23.05

KEY GROWTH DRIVERS

Population Growth:

During 2018 -19, Indian population has increased by 14 Million people and reach 1.36 Billion. In India, the population is booming in scores of small cities across the country. About 40% of India's population will be living in urban areas by 2025, and these city dwellers will account for more than 60% of consumption. This growth is directly related with the growth in the FMCG sector. India will have 68 cities with population of more than 1 million by 2030, up from the current 42 cities. Rural consumption has increased, led by a combination of increasing incomes and higher aspiration levels; there is an increased demand for branded products in rural India. The rural FMCG market in India is expected to grow to US\$ 220 billion by 2025 from US\$ 23.6 billion in FY18.

Higher Incomes Aid Growth In Urban And Rural Markets:

Incomes have risen at a brisk pace in India and will continue rising given the country's strong economic growth prospects. An important consequence of rising incomes is growing appetite for premium products, primarily in the urban segment. As the proportion of 'working age population' in total population increases, per capita income and GDP are expected to surge.

Modern Retail:

The Retail market in India is estimated to reach US\$ 1.1 trillion by 2020 from US\$ 840 billion in 2017, with modern trade expected to grow at 20 per cent - 25 per cent per annum, which is likely to boost revenues of FMCG companies. Revenues of FMCG sector reached US\$ 52.75 billion in FY18 and are estimated to reach US\$ 103.7 billion in 2020. The sector witnessed growth of 16.5 % in value terms between July-September 2018; supported by moderate inflation, increase in private consumption and rural income.

E-Commerce:

The huge potential of online shopping has caught the attention of top fast-moving consumer goods (FMCG) companies. It is estimated that 40 per cent of all FMCG purchases in India will be online by 2020, thereby making it a huge business opportunity.

Sourcing Base:

Indian and multinational FMCG players can leverage India as a strategic sourcing hub for cost competitive product development and manufacturing to cater to international markets.

Brand Consciousness:

The spending patterns of Indians have witnessed a shift towards branded products owing to a rise in disposable incomes. A vast majority of people no longer wish to compromise quality just to save some extra money.

RISK MANAGEMENT AND MITIGATION:

Your Company is exposed to commodity price fluctuations in its business. All major raw materials as well as finished goods being agro-based are subject to market price variations. Prices of these commodities continue to be linked to both domestic and international prices, which in turn are dependent on various Macro/ Micro factors. Also Commodities are increasingly becoming asset classes. Prices of the Raw materials and finished products manufactured by your Company fluctuate widely due to a host of local and international factors.

Key risks for the edible oils sector include risks from change in import-export regulations; change in the minimum support price (MSP) on oilseeds offered by the government; high dependence on monsoons and finally, the risk arising out of exchange rate fluctuations. Procurement of material at the right price and quantity, optimum utilization of processing units, their strategic location, a strong brand name and diversification of product offerings are likely to be the key success determinants for players.

Increase in the number of competing brands in the market place, counter campaigning and aggressive pricing by competitors have the potential to create a disruption.

Your Company continues to place a strong emphasis on the risk management and has successfully introduced and adopted various measures for hedging the price fluctuations in order to minimize its impact on profitability. Also, your Company has initiated setting-up of a framework to upgrade itself to a robust risk management system.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF RAJ OIL MILLS LIMITED REPORT ON STANDALONE FINANCIAL STATEMENTS

Opinion

We have audited the accompanying Standalone financial statements of **M/s. Raj Oil Mills Limited ("the Company")** which comprises the Balance Sheet as at March 31, 2019, the Statement of Profit and Loss, statement of Changes in Equity and Statement of Cash Flows for the year ended on that date, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (herein after referred to as "standalone Ind AS financial statements").

Basis of Qualified Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SA's) specified under Section 143(10) of the Companies Act ('the Act'). Our responsibilities under those Standards are further described in the Auditor's responsibility for the Audit of the standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to the audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements except for the matters stated hereunder:

- 1) *A petition has been filed against Dipti Veg Oil Limited for recovery of INR 1.75 crore before National Company Law Tribunal, Mumbai Bench and the same is disclosed under 'Trade Receivables' in the books of accounts of the Company. In this regard, no provision has been made in the books of accounts of the Company.*
- 2) *As per section 148 of the Companies Act, 2013, read with Rule 3 (B)-20 - "Non-Regulated Sector –Edible Oil" and Rule 5 – of Companies (Cost Records and Audit) Rules, 2014, the company is required to maintain the cost record for the manufacturing process. However, the Company is in the process of maintaining records of cost of materials consumed on actual consumption basis. Further, as per Rule 6 of Companies (Cost Records and Audit) Rules, 2014, no cost audit has been carried out by the company during the year under audit.*
- 3) *We planned our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement except for the impact on the aforementioned qualifications in the Ind AS Financial Statement of the Company.*

Qualified opinion

In our opinion and to the best of our information and according to the explanations given to us, except for the matter described in the Basis of Qualified Opinion paragraph above, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, and loss (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significant in our audit of standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone

financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Information other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the standalone financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134 (5) of the Companies Act, 2013 with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the state of affairs, profit/loss and other total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ("Ind AS") prescribed under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for

ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility for the Audit of Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements. We communicate with those charged with governance regarding, among other matters, the planned scope and timing

of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2016 ('the Order'), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order to the extent applicable.
- 2) As required by Section 143 (3) of the Act, we report that:
 - a) We have sought and except for the possible effect of the matter described in the Basis of Qualified Opinion paragraph above, obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) Except for the possible effect of the matter described in the Basis of Qualified Opinion paragraph above, in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of accounts.
 - d) Except for the possible effect of the matter described in the Basis of Qualified Opinion paragraph above, in our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) The matters described in the 'Basis of Qualified Opinion' paragraphs above, in our opinion may have an adverse effect on the functioning of the Company;
 - f) The erstwhile Board of Directors has been suspended as on the balance sheet date 31st March, 2019, as regard to Section 17(1) (b) of "The Insolvency and Bankruptcy Code, 2016". The Hon'ble NCLT vide its order dated April 19, 2018 appointed Mr Sufyan Abdul Razak Maknojia as the Managing Director of the Company authorising him to reconstitute the Board of Directors. On the basis of the written representations received from the Management as on 31st March, 2019 taken on record by the reconstituted Board of Directors, none of the directors is disqualified as on 31st March, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
 - g) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in "**Annexure B**".

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
1. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements.
 2. The Company does not have any long-term contracts including derivatives contracts for which there were any material foreseeable losses; and
 3. There are no amounts required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure - B to the Independent Auditors' Report

Referred to in Paragraph 1(g) under Report on Other Legal and Regulatory Requirement's section of our report to the Members of Raj Oils Mills Limited of even date

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Raj Oil Mills Limited** ("the Company") as of March 31, 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Director of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('Guidance Note') issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note issued by ICAI and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects except which stated in Audit Report.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate except which stated in Audit Report to provide a basis for audit opinion on the company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally

accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company has in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of internal Financial Controls over Financial Reporting issued by the ICAI.

**NOTES TO THE FINANCIAL STATEMENTS**

Standalone financial statements of Raj Oil Mills Limited for the year ended 31 March 2019.

Note 1: Background and Company overview

Raj Oil Mills Ltd (the 'Company' or 'ROML') is a public limited company incorporated and domiciled in India with its registered office at 224-230, Bellasis Road, Mumbai- 400 008, Maharashtra, India. The Company is listed on National Stock Exchange (NSE) and Bombay Stock Exchange (BSE).

Note 2: Significant Accounting policies

This Note provides a list of the significant Accounting Policies adopted by the Company in preparation of these Financial Statements. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

a) Basis of preparation

- i) Compliance with Ind AS: The Financial Statements comply in all material respects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI), read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the relevant amendment rules issued thereafter.
- ii) Historical cost convention:

The Financial Statements have been prepared on a historical cost convention on accrual basis except for the following:

- a) Certain financial instruments that are required to be carried at fair values by IndAS;
- b) Defined benefit plans: plan assets measured at fair value;

b) Use of estimates and judgements

Preparation of the Financial Statements require use of accounting estimates which, by definition, will seldom equal the actual results. This Note provides an overview of the areas that involved a higher degree of judgements or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

The areas involving critical estimates or judgements are:

- i) Estimation of useful life of property, plant and equipment: Note 2(g)
- ii) Estimation of defined benefit obligation: Note 27
- iii) Fair value measurements: Note 29
- iv) Probable outcome of matters included under Contingent Liabilities: Note 31

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

c) Foreign currency transactions:**(i) Functional and presentation currency:**

Items included in the Financial Statements of the Company are measured using the currency of the primary economic environment in which the Company operates (functional currency). The Financial Statements of the Company are presented in Indian currency (INR), which is also the functional and presentation currency of the Company.

NOTES TO THE FINANCIAL STATEMENTS

(ii) Transactions and balances:

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions.

Foreign exchange gain I (loss) resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the Statement of Profit and Loss except that they are deferred in equity if they relate to qualifying cash flow hedges. Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, within finance costs. All other foreign exchange gain I (loss) are presented in the Statement of Profit and Loss on a net basis within other income I (expense).

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in Other Comprehensive Income or Statement of Profit and Loss are also recognised in Other Comprehensive Income or Statement of Profit and Loss, respectively).

Appendix B to Ind AS 21 'Foreign currency transactions and advance consideration': On March 28, 2018, the Ministry of Corporate Affairs (the MCA) notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment is effective from April 01, 2018. The Company has evaluated the effect of this on the Financial Statements and the impact is insignificant.

d) Revenue Recognition:

(i) Timing of recognition:

On March 28, 2018, the MCA notified the Ind AS 115. The core principle of the new standard is that an entity will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further, the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers of the Company.

The standard permits two possible methods of transaction:

- a) Retrospective approach – Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors'.
- b) Retrospectively with cumulative effect of initially applying the standard recognised at the date of initial application (Cumulative catch-up approach)

Effective April 01, 2018, the Company adopted Ind AS 115 "Revenue from Contracts with Customers". The effect on adoption of Ind AS 115 is insignificant.

Sale of goods–

Revenue from sale of goods is recognized when control of goods are transferred to the customer which is generally on delivery for domestic sales and on dispatch/ delivery for export sales in accordance with the terms of the contract. The Company recognizes revenues on the sale of products, net of returns, discounts (sales incentives/

NOTES TO THE FINANCIAL STATEMENTS

rebates), and taxes and duties collected on behalf of government which are levied on sales (such as goods and services tax) and payments or other consideration given to the customer that has impacted the pricing of the transaction.

Revenue is recognised only to the extent that it is highly probable that a significant reversal will not occur. No element of financing is deemed present as the sales are made with normal credit days consistent with market practice. A liability is recognised where payments are received from customers before transferring control of the goods being sold.

Rendering of services –

Revenue from services (including those embedded in contract for sale of goods namely freight and insurance services mainly in case of export sales), is recognised upon completion of services.

Interest income –

Interest income from debt instruments, is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options), but does not consider the expected credit losses.

Dividend -

Dividends are recognised in the Statement of Profit and Loss only when the right to receive payment is established; it is probable that the dividend will flow to the Company and the amount of the dividend can be measured reliably.

Other income -

- Eligible export incentives are recognised in the year in which the conditions precedents are met and there is no significant uncertainty about the collectability.
- Lease rental income is recognised on accrual basis.
- Earnest money forfeited from customer is accounted for in the year of forfeiture.

(ii) Measurement of Revenue:

Revenue is measured at the fair value of the consideration received or receivable, after the deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the Government which are levied on sales such as goods and services tax, value added tax, etc.

Discounts given include rebates, price reductions and other incentives given to customers. Accumulated experience is used to estimate and provide for the discounts and returns. The volume discounts are assessed based on anticipated annual purchases.

The Company recognises provision for sales return, based on the historical results, measured on net basis of the margin of the sale. Therefore, a refund liability, included in other current liabilities, is recognized for the products expected to be returned.

e) Income Taxes

The income tax expense or credit for the period is the tax payable on the taxable income of the current period based on the applicable income tax rates adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and unused tax losses.

NOTES TO THE FINANCIAL STATEMENTS

(i) Current Tax

Current tax comprises the expected tax payable or recoverable on the taxable profit or loss for the year and any adjustment to the tax payable or recoverable in respect of previous years. It is measured using tax rates enacted or substantively enacted by the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretations and establishes provisions where appropriate.

Current tax assets are offset against current tax liabilities if, and only if, a legally enforceable right exists to set off the recognised amounts and there is an intention either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(ii) Deferred Tax

Deferred income tax is recognised in respect of temporary difference between the carrying amount of assets and liabilities for financial reporting purpose and the amount considered for tax purpose.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilised. Such reductions are reversed when it becomes probable that sufficient taxable profits will be available.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority on the same taxable entity.

Minimum Alternate Tax ('MAT') under the provisions of the Income Tax Act, 1961 is recognised as current tax in the Statement of Profit and Loss. The credit available under the Act in respect of MAT paid will be recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried forward for set off against the normal tax liability. Such an asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

f) Leases:

As a lessee:

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor), if any are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate expected inflationary cost increases for the lessor.

As a lessor:

Income from operating leases where the Company is a lessor is recognised as income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the Balance Sheet based on their

**NOTES TO THE FINANCIAL STATEMENTS**

nature. Leases of property, plant and equipment where the Company as a lessor has substantially transferred all the risks and rewards are classified as finance lease. Finance leases are capitalised at the inception of the lease at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rent receivables, net of interest income, are included in other financial assets. Each lease receipt is allocated between the asset and interest income. The interest income is recognised in the Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the asset for each period. Under combined lease agreements, land and building are assessed individually. Lease rental attributable to the operating lease are charged to the Statement of Profit and Loss as lease income whereas lease income attributable to finance lease is recognised as finance lease receivable and recognised on the basis of effective interest rate.

Refer Note 2(v) below.

g) Property Plant and Equipment:

An item of property, plant and equipment is recognised as an asset if it is probable that the future economic benefits associated with the item will flow to the Company and its cost can be measured reliably.

Freehold land is carried at cost. All other items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the carrying amount of asset or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the Statement of Profit and Loss during the period in which they are incurred. Gains or losses arising on retirement or disposal of assets are recognised in the Statement of Profit and Loss.

Property, plant and equipment which are not ready for intended use as on the date of Balance sheet are disclosed as 'Capital work in progress'.

Depreciation methods, useful life and residual value:

Depreciation is provided on the straight-line method to allocate the cost of assets, net of their residual values, over their estimated useful lives. Depreciation is calculated on a pro-rata basis from the date of acquisition / installation till the date the assets are sold or disposed of:

Asset category	Estimated Useful life
Factory building	30 years
Non Factory building	60 years
Plant and machinery	15 years
Vehicles	8-10 years
Office equipment	5 years
Furniture and fixtures	10 years

The residual values are not more than 5% of the original cost of the asset. The residual values, useful lives and method of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Depreciation on additions / deletions is calculated pro-rata from the month of such addition / deletion, as the case may be. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss.

NOTES TO THE FINANCIAL STATEMENTS

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

h) Intangible assets:

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any amortisation and accumulated impairment losses, if any.

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives, and is recognised in Statement of profit or loss. The estimated useful lives for current and comparative periods for TradeMark is 10 years.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

i) Investment properties:

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured at its cost, including related transaction costs and where applicable borrowing costs less depreciation and impairment if any.

j) Impairment of Non-Financial assets:

The carrying amount of assets are reviewed at each Balance Sheet date to assess if there is any indication of impairment based on internal or external factors. An impairment loss on such assessment is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount of the assets is net selling price or value in use, whichever is higher. While assessing value in use, the estimated future cash flows are discounted to the present value by using weighted average cost of capital. A previously recognised impairment loss is further provided or reversed depending on changes in the circumstances and to the extent that carrying amount of the assets does not exceed the carrying amount that will be determined if no impairment loss had previously been recognised.

k) Cash and Cash equivalents:

Cash and Cash equivalents includes cash on hand, demand deposits with the bank and other short term, highly liquid investments with original maturities of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents as defined above is net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

l) Inventories:

Inventories are stated at cost or net realisable value, whichever is lower. Cost is determined on moving weighted average basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventory to the present location and condition. Due allowances are made for slow moving and obsolete inventories based on estimates made by the Company. Items such as spare parts, stand-by equipment and servicing equipment which are not plant and machinery get classified as inventory.

**NOTES TO THE FINANCIAL STATEMENTS****m) Investments and other financial assets:****Financial Assets:****(i) Classification:**

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through Other Comprehensive Income, or through profit or loss)
- Those measured at amortised cost

The classification depends on business model of the Company for managing financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will either be recorded in profit or loss or Other Comprehensive Income.

For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through Other Comprehensive Income.

(ii) Initial recognition and measurement:

Financial asset is recognised when the Company becomes a party to the contractual provisions of the instrument. Financial asset is recognised initially at fair value plus, in the case of financial asset not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial asset carried at fair value through profit or loss are expensed in the Statement of Profit and Loss.

(iii) Subsequent measurement:

After initial recognition, financial asset is measured at:

- fair value (either through Other Comprehensive Income (FVOCI) or through profit or loss (FVPL)); or
- amortised cost.

(iv) Debt instruments:

Subsequent measurement of debt instruments depends on the business model of the Company for managing the asset and the cash flow characteristics of the asset. There are 3 measurement categories into which the Company classifies its debt instruments:

Measured at amortised cost: Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the EIR method less impairment, if any, the amortisation of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss.

Measured at fair value through Other Comprehensive Income (OCI): Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through OCI. Fair value movements are recognised in the OCI. Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain I (loss) previously recognised in OCI is reclassified from the equity to other income in the Statement of Profit and Loss.

Measured at fair value through profit or loss: A financial asset not classified as either amortised cost or FVOCI, is classified as FVPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as other income in the Statement of Profit and Loss.

NOTES TO THE FINANCIAL STATEMENTS

(v) Equity instruments:

The Company subsequently measures all investments in equity instruments other than subsidiary companies, associate company and joint venture company at fair value. The Management of the Company has elected to present fair value gains and losses on such equity investments in Other Comprehensive Income, and there is no subsequent reclassification of these fair value gains and losses to the Statement of Profit and Loss.

Dividends from such investments continue to be recognised in profit or loss as other income when the right to receive payment is established. Changes in the fair value of financial assets at fair value through profit or loss are recognised in the Statement of Profit and Loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(vi) Impairment of financial assets:

The Company assesses on a forward-looking basis the expected credit losses associated with its financial assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade and lease receivable only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of such receivables

(vii) Derecognition:

A financial asset is derecognised only when the Company has transferred the rights to receive cash flows from the financial asset, the asset expire or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients. Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised through Statement of Profit and Loss or Other Comprehensive Income as applicable. Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised. Where the Company has neither transferred a financial asset nor retained substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Financial liabilities:

- (i) Classification as debt or equity - Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.
- (ii) Initial recognition and measurement - Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are classified at initial recognition as financial liabilities at fair value. All financial liabilities are recognised at fair value and in case of loans and borrowings and payables, net of directly attributable and incremental transaction cost. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.
- (iii) Subsequent measurement - Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.
- (iv) Derecognition - A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is

**NOTES TO THE FINANCIAL STATEMENTS**

treated as de-recognition of the original liability and recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

n) Offsetting financial instruments:

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

o) Borrowings:

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

p) Borrowing costs:

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

q) Provisions and contingent liabilities:

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. These are reviewed at each year end to reflect the best current estimate. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liability is disclosed for:

- Possible obligations that arise from past events but their existence is confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or
- Present obligations arising from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognised till the realization of the income is virtually certain. However, the same are disclosed in the financial statements where inflow of economic benefits is probable.

NOTES TO THE FINANCIAL STATEMENTS

r) Employees Benefit:

(i) Defined Benefit Plan:

Gratuity –

Gratuity liability is a defined benefit obligation and is computed on the basis of an actuarial valuation by an actuary appointed for the purpose as per 'Projected Unit Credit Method' at the end of each financial year. The Company has created a trust and has taken group gratuity policy with Life Insurance Corporation of India for future payments of retiring gratuities.

The liability or asset recognised in the Balance Sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows with reference to market yields at the end of the reporting period on Government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate at the beginning of the period to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur directly in Other Comprehensive Income. They are included in retained earnings in the Statement of changes in equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(ii) Defined Contribution Plan:

Contributions to defined contribution schemes such as contribution to Provident Fund, Superannuation Fund, Employees' State Insurance Corporation, National Pension Scheme and Labours Welfare Fund are charged as an expense to the Statement of Profit and Loss based on the amount of contribution required to be made as and when services are rendered by the employees. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

(iii) Short-term employee benefits:

All employee benefits payable within 12 months of service such as salaries, wages, bonus, ex-gratia, medical benefits etc. are recognised in the year in which the employees render the related service and are presented as current employee benefit obligations. Termination benefits are recognised as an expense as and when incurred. Short-term employee benefits are provided at undiscounted amount during the accounting period based on service rendered by employees. Compensation payable under Voluntary Retirement Scheme is being charged to the Statement of Profit and Loss in the year of settlement.

(iv) Other long-term employee benefits:

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the 'Projected Unit Credit Method'. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as

**NOTES TO THE FINANCIAL STATEMENTS**

a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss. The obligations are presented as current liabilities in the Balance Sheet if the Company does not have an unconditional right to defer settlement for at least 12 months after the reporting period, regardless of when the actual settlement is expected to occur.

s) Earnings per share (EPS):**Basic earnings per share**

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

t) Non Current assets held for sale:

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement. Non-current assets are not depreciated or amortised while they are classified as held for sale

u) Exceptional Items:

When items of income and expense within Statement of Profit and Loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such material items are disclosed separately as exceptional items.

v) Recent accounting pronouncements:**Ind AS 116: Leases**

On 30th March 2019, the Ministry of Corporate Affairs (MCA) has notified Ind AS 116 Leases, under Companies (Indian Accounting Standards) Amendment Rules, 2019 which is applicable with effect from 1st April, 2019.

Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lease accounting model for lessee and requires the lessee to recognize right of use assets and lease liabilities for all leases with a term of more than twelve months, unless the underlying asset is low value in nature. Currently, operating lease expenses are charged to the statement of profit and loss. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

As per Ind AS 116, the lessee needs to recognise depreciation on rights of use assets and finance costs on lease liabilities in the statement of profit and loss. The lease payments made by the lessee under the lease arrangement will be adjusted against the lease liabilities.

NOTES TO THE FINANCIAL STATEMENTS

Ind AS 12 Income Taxes:

Appendix C – Uncertainty over Income Tax Treatments

This interpretation, which will be effective from April 01, 2019, clarifies how entities should evaluate and reflect uncertainties over income tax treatments, in particular when assessing the outcome a tax authority might reach with full knowledge and information if it were to make an examination. This amendment is not expected to have a significant impact on the Company's financial statements based on current available information.

Note 2A - Corporate Insolvency Resolution Process ("CIRP Process")

The Board of Directors of the Company at their meeting held on June 06, 2014 referred the Company to the Board of Industrial and Financial Reconstruction ('BIFR') by submission of an application to the BIFR Board on June 09, 2014. The case was accepted and registered by BIFR Board u/s 15(1) of Sick Companies (Special Provisions) Act, 1985 ('SICA') on January 12, 2015. However, due to the repeal of the SICA, BIFR was dissolved resulting into the implementation of the Insolvency and Bankruptcy Code 2016 ('IBC/Code'), whereby all the pending cases were transferred to the National Company Law Tribunal ('NCLT').

In accordance with the applicable provisions of the IBC/Code, the CIRP Process of the Company was initiated by the NCLT and the case was admitted by the Hon'ble NCLT whereby the Company received an order dated July 10, 2017 ('Insolvency Commencement Date'). Pursuant to the said order, Mr. U V G Nayak was appointed as the Interim Resolution Professional ('IRP') to manage the affairs of the Company. Thereafter, Mr. Rajendra M. Ganatra was confirmed as the Resolution Professional ('RP') by the Committee of Creditors ('CoC'). On appointment of the IRP/RP, the powers of the Board of Directors of the Company were suspended. Thereafter, the RP invited expressions of interest and submission of a resolution plan in accordance with the provisions of the Code. Of the various resolution plans submitted, the CoC approved the resolution plan submitted by Rubberwala Housing and Infrastructure Limited, jointly with Mukhi Industries Limited ('Successful Resolution Applicants / New Promoters').

The RP submitted the CoC approved resolution plan to the Hon'ble NCLT for its approval of the final order. The NCLT, Mumbai bench, vide its order dated April 19, 2018 ('NCLT order') approved the resolution plan ('Approved Resolution Plan') submitted by the Successful Resolution Applicants in accordance with the IBC. In view of the NCLT order, a new Board was constituted in the current financial year and a new management was put into place.

However, consequent to receipt of the NCLT order, the Approved Resolution Plan was subjected to stay proceedings vide the National Company Law Appellate Tribunal order ('NCLAT order') dated July 02, 2018 on account of the appeal filed by the Department against the said NCLT order. The appeals were subsequently disposed of by the NCLAT, Delhi vide their order dated March 20, 2019. Consequently, the Approved Resolution Plan has now come into effect post the removal of the stay proceedings vide the said order. In accordance with the provisions of the Code and the NCLT order, the Approved Resolution Plan is binding on the Company and its employees, members, creditors, guarantors and other stakeholders involved.

Pursuant to such Approval of the Resolution Plan, the financial statements for the year ended March 31, 2019 have been prepared on a going-concern basis taking into consideration the settlement payments crystallised under the 'Debt Restructuring Scheme' prescribed under the Approved Resolution Plan. Detailed information about each of these items and its impact is stated hereunder and included in relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

The principal assumptions are the discount rate and salary growth rate. The discount rate is generally based upon the market yield available on the Government bonds at the accounting date with a term that matches that of the liabilities and the salary growth rate takes account of inflation, seniority, promotion and other relevant factors on long term basis.

c) A quantitative sensitivity analysis for significant assumption as at March 31, 2019 is as shown below:

	Discount rate	
Sensitivity Level	0.50% increase	0.50% decrease
Increase/ (decrease) in defined benefit obligation	4710239	5214381

	Salary growth rate	
Sensitivity Level	0.50% increase	0.50% decrease
Increase/ (decrease) in defined benefit obligation	5214383	4705961

	Withdrawal rate	
Sensitivity Level	10% increase	10% decrease
Increase/ (decrease) in defined benefit obligation	4960287	4944762

The sensitivity analyses above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period and may not be representative of the actual change. It is based on a change in the key assumption while holding all other assumptions constant. When calculating the sensitivity to the assumption, the method (Projected Unit Credit Method) used to calculate the liability recognised in the balance sheet has been applied. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous period."

Sensitivity due to mortality is not material hence impact of change due to these is not calculated. Sensitivities as to rate of increase of pensions in payment, rate of increase of pensions before retirement and life expectancy are not applicable

The average duration of the defined benefit plan obligation at the end of the reporting period is 10.72 years (P.Y. March 31, 2018: 10.57 years)

d) Description of Risk Exposures:

Valuations are based on certain assumptions, which are dynamic in nature and vary over time. As such company is exposed to various risks as follows:

- Salary Increases- Actual salary increases will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.
- Mortality & disability – Actual deaths & disability cases proving lower or higher than assumed in the valuation can impact the liabilities.
- Withdrawals – Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact plan's liability

- 1 Related parties are identified by the Management and relied upon by the Auditors
- 2 Borrowings of the Company are guaranteed by the personal guarantee of the directors
- 3 As the liabilities for the defined benefit plans (post employment benefits) are provided on actuarial basis for the Company as a whole, the amount pertaining to Key Managerial personnel are not included.
- 4 Terms and conditions of transactions with related parties -
 - i) All related party transactions entered during the year were in ordinary course of the business and are on arm's length basis.
 - ii) For the year ended March 31, 2019, the Company has not recorded any impairment of receivables relating to amounts owed by related parties (P.Y- Nil). This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates

Note 29: Financial Instruments : Accounting classifications and fair value measurements**(i) Accounting classifications**

The fair values of the financial assets and liabilities are determined at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

The carrying amounts of trade receivables, cash and cash equivalents, bank balances, short term deposits, trade payables, payables for acquisition of property, plant and equipment, short term loans from banks, financial institutions and other current financial assets and liabilities are considered to be the same as their fair values, due to their short-term nature.

(ii) Fair value measurements

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The following table presents carrying value and fair value of financial instruments by categories and also fair value hierarchy of assets and liabilities measured at fair value :

Notes to financial statements for the year ended March 31, 2019

Financial Risk Management

The Company is exposed to financial risks arising from its operations and the use of financial instruments. The Company has identified financial risks and categorised them in three parts viz.

- (i) Credit Risk,
- (ii) Liquidity Risk and
- (iii) Market Risk.

Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors are responsible for developing and monitoring the Company's risk management. The Company's risk management framework, are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations. "

(i) Credit Risk

Credit risk refers to the possibility of a customer and other counterparties not meeting their obligations and terms and conditions which would result into financial losses. Such risk arises mainly from trade receivables, other receivables, loans and investments.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- i) Actual or expected significant adverse changes in business,
- ii) Actual or expected significant changes in the operating results of the counterparty,
- iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- iv) Significant increase in credit risk on other financial instruments of the same counterparty,
- v) Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees or credit enhancements

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized as income in the statement of profit and loss. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables, loans and advances. The maximum exposure to credit risk in case of all the financial instruments covered below is restricted to their respective carrying amount."

a) Trade Receivables

- i) As at March 31, 2019, the ageing of trade receivables that were not impaired was as follows:

Note -

Financial Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognised in Statement of Profit and Loss.

b) Investments

The Company invests its funds in unlisted equity shares of Banks which carry (no/low/high risk) for (short/long) duration and therefore (does/does not) expose the company to Credit risk. Such investment are made after reviewing creditworthiness and therefore (does/does not) expose the company to credit risk. Such investment are monitored on a regular basis.

c) Loans and other financial assets

Loans and other financial assets includes other receivables, loans given and esecurity deposits to customers. These loans and deposits were made in continuation of business related activities and are made after review as per companies policy.

Notes to financial statements for the year ended March 31, 2019

d) Cash and cash equivalents

The cash and cash equivalents are held with banks with good credit ratings. Also, the Company invests its funds in bank fixed deposits and shares, which carry (no / low) market risks for short duration and therefore, does not expose the Company to credit risk.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the Company operates.

a) Financing arrangements

The Company has an adequate fund. The borrowing facilities at the end of the reporting period to which the Company had access is NIL.

b) Maturities of financial liabilities

The amounts disclosed in the table are the contractual undiscounted cash flows

**Notes to financial statements for the year ended March 31, 2019****(iii) Market Risk**

The risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market price. Market risk further comprises of

- (a) Currency risk;
- (b) Interest rate risk; and
- (c) Commodity risk.

a) Currency risk

The Company is not exposed to any currency risk as the Company does not have any import payables, short term payables, short term borrowings and export receivables in foreign currency.

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

The Management is responsible for the monitoring of the Company's interest rate position. Various variables are considered by the Management in structuring the Company's borrowings to achieve a reasonable, competitive, cost of funding.

- Exposure to interest rate risk

The Company's interest rate risk arises from borrowings. The interest rate profile of the Company's interest bearing financial instruments as reported to the Management of the Company is as follows:

b) Commodity risk

- Raw Material Risk

Company is exposed to commodity price fluctuations in its business. All major raw materials as well as finished goods being agro-based are subject to market price variations. Prices of these commodities continue to be linked to both domestic and international prices, which in turn are dependent on various Macro/ Micro factors. Also Commodities are increasingly becoming asset classes. Prices of the Raw materials and finished products manufactured by your Company fluctuate widely due to a host of local and international factors.

Key risks for the edible oils sector include risks from change in import-export regulations; change in the minimum support price (MSP) on oilseeds offered by the government; high dependence on monsoons and finally, the risk arising out of exchange rate fluctuations. Procurement of material at the right price and quantity, optimum utilization of processing units, their strategic location, a strong brand name and diversification of product offerings are likely to be the key success determinants for players.

- Capital Management

The Company's capital management objectives are:

- a) to ensure the Company's ability to continue as a going concern
- b) to provide an adequate return to shareholders

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

The Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Company's various classes of debt. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

a) Debt Equity Ratio

The Company monitors capital using debt equity ratio. The Company's debt to equity ratios are as follows:
